Delhi curbs older trucks as Gujarat stops for five days

● NETWORK: AMBER

DIWALI WEEK · 1 DAY TO DIWALI

For heads of logistics moving goods within, into or out of India, wherever they sit: what to move, hold or reroute this week.

Delhi-NCR moved to Stage III of its pollution plan on Friday evening[1], so Delhi's older diesel goods trucks and every load of cement, sand and bricks stay off its roads until it lifts. From Tuesday most of Gujarat's businesses close for the new year until Labh Pancham on Saturday[2,3], and loads to and from the state wait. At sea, an Iranian lawmaker says Indian ships may cross Hormuz[4], two days after an Indian-crewed dhow was hit off Oman[5].

Map: DataMeet, CC BY 4.0

● GREEN normal for the week: busy, but plans hold
● AMBER something slows freight beyond a normal week
● RED freight largely stopped across a state, corridor or gateway

DATES THAT MATTER

- **Since Sun 1 Nov** Delhi admits outside goods vehicles only if BS-VI, CNG, LNG or electric[6]
- **Until Sun 8 Nov, 8 pm** NH-27 round Ayodhya shut to trucks for Deepotsav; Bihar loads go by the expressways
- **Until Thu 12 Nov** Pune's old-city markets take goods vehicles only at night
- **Sun 8 Nov** Kolkata keeps goods vehicles off its roads for Kali Puja
- **Mon 9 – Wed 11 Nov** Kolkata curbs goods vehicles for the immersions
- **Tue 10 – Sat 14 Nov** Gujarat's markets and transport shut till Labh Pancham

DELIVERY PROMISE BY REGION

North	West	South	East	Northeast	Central
+1*	+2*	+0	+0	+0	+0
AMBER	RED	GREEN	GREEN	GREEN	GREEN

* Likely extra days on freight within the region this week, to Sun 15 Nov, on the places named, against a normal week.

Delhi's pollution curbs hold older diesel trucks and building materials out of NCR

North · Delhi, with Gurugram, Noida, Ghaziabad and Faridabad around it, and every road into them

AMBER · MEDIUM COST OF DELAY · HIGH CONFIDENCE

The Commission for Air Quality Management (CAQM) brought in Stage III of GRAP, Delhi-NCR's graded pollution action plan, on Friday as a precaution, after Thursday's air quality index read 382[1]. Under Stage III, Delhi-registered diesel goods trucks of BS-IV or older, the emission standard before 2020, stay off Delhi's roads unless they carry essential goods[7]. Cement, sand, bricks and other building materials stop moving across NCR. Stage III stays until CAQM lifts it.

- **Delhi-NCR** North · +1 day Non-essential loads on an older Delhi truck wait for a newer one. With Diwali on Sunday and fewer trucks about, I'd expect deliveries into the city to run a day behind through next week, and building-material loads not at all.

DECISIONS TO MAKE

For freight within India

- Book only BS-VI, CNG or electric trucks for anything entering or moving within Delhi this week, and plan for Stage III to last past Chhath; my estimate, since CAQM gives no end date.
- Cement, steel-yard and other building-material deliveries into NCR sites are on hold under Stage III; hold them at the plant rather than at the city's edge.

Gujarat shuts from Tuesday to Saturday, so its loads wait for the restart

West · Gujarat, with Ahmedabad, Surat, Vadodara and Rajkot, and the trucks to Mundra and Kandla

RED · MEDIUM COST OF DELAY · MEDIUM CONFIDENCE

Gujarat's holiday list gives the new year on Tue 10 Nov and Bhai Bij on Wed 11 Nov[2]. Most private firms close for the whole stretch, because most business in the state stops. They reopen on Labh Pancham, Sat 14 Nov[3].

- **Gujarat, with Ahmedabad, Surat, Vadodara and Rajkot** West · +2 days Factories and traders close from Tuesday, so loads to and from the state wait for Saturday. I'd expect the ports to keep working with few trucks to feed them, and Monday 16 Nov to be the first full day.

DECISIONS TO MAKE

For freight within India

- Move Gujarat pickups and deliveries by Monday 9 Nov or plan them from Saturday 14 Nov; a load booked in between is likely held at the dock till the restart.

For freight into and out of India

- Exports from Gujarat factories to Mundra or Kandla need to reach the gate by Monday or wait for the restart on Saturday; check your cut-offs against that.

Iran says Indian ships may cross Hormuz, but Indian sailors are still being hit

West · Ships to and from the Gulf through the Strait of Hormuz, and the exports from Mundra, Kandla and Nhava Sheva that ride on them

AMBER · HIGH COST OF DELAY · MEDIUM CONFIDENCE

An Iranian lawmaker told the ISNA news agency on Tuesday that ships from India, China, Iraq and Qatar are exempt from Iran's transit restrictions in the Strait of Hormuz[4]; India hasn't confirmed it. On Monday evening the Al Jusufi, an Indian-crewed dhow leaving through the strait, was hit off Oman; one Gujarati seafarer died[5]. Most Indian exports sail on foreign lines, which the exemption doesn't cover.

DECISIONS TO MAKE

For freight into and out of India

- Treat Gulf sailings from Mundra, Kandla and Nhava Sheva as uncertain this week. Confirm the vessel before a box leaves the factory; a box held at the port with no sailing costs more every day.
- Ask your line whether it uses the exemption at all; an Indian-flag sailing may be the only one that moves without delay, my estimate until India or the lines confirm it.
